---

### **Summary**

- Current student of Software Engineering Technology at Centennial College, Toronto.
- Enthusiastic Software Engineer with professional experience in latest technologies and passion for coding.
- Adept at designing, implementing, and testing software applications to meet business needs.
- Flexible in working various shifts, including evenings and weekends, to accommodate business demands.
- Collaborate effectively with team members to ensure a smooth workflow working environment.
- Developed and maintained scalable software applications using Python, SQL, C#.
- Participated in code reviews to ensure adherence to coding standards and optimize performance.
- Seeking a challenging role to leverage my technical expertise and contribute to the success of cutting-edge projects.
- Strong communication skills, multilingual in Hindi, English and French.

### **Work Experience**

#### **Software Engineer - II**

March 2023 - June 2023

Thales, Noida, India

- Contributed to the continuous improvement of development processes and methodologies.
- Took ownership of various Kanban tasks and performed various release activities.
- Worked on automations in angular and wrote E2Es for testing purpose.
- Built python framework for different API calling techniques such as rest and GRPC.

#### **Software Engineer - I**

Aug 2022 – March 2023

Thales, Noida, India

- Performed code restructuring techniques used in SAS project, Thales product.
- Worked closely with product managers to prioritize tasks and meet project deadlines.
- Applied layers of code in C# through implementing dependency injection and extracting surfaces.
- Learning and building optimal approaches and unique techniques to develop software.

#### **Intern**

Feb 2022 – Aug 2022

Thales, Noida, India

- Collaborated with the QA team to address reported issues and deliver robust software solutions.
- Worked on technologies in agile project management such as JIRA, Confluence and Jenkins.
- Integrated Postgres SQL with SAS, component of STA (Safenet Trusted Access).
- Rigorously worked on refactoring code of the authentication software, STA.

#### **Web Developer**

May 2021 – July 2021

Amity Innovation Incubator, Noida, India

- Developed dynamic and responsive web applications using Angular framework.
- Implemented user interfaces with a strong focus on usability and user experience.
- Ensured cross-browser compatibility and responsive design across various devices.
- Optimized web application performance to enhance loading speed and user experience.

### **Education**

#### **Post-Graduate Certificate in Software Engineering Technology**

Sep 2023 - Present

Centennial College, Toronto, ON

*Expected graduation April 2025*

#### **Bachelor of Technology in Computer Science and Engineering**

July 2018 – June 2022

Amity University, Noida, India

CGPA: 8.24/10

### **Certifications**

- **Python for Everybody**  
University of Michigan, Coursera  
Certificate Link: <https://coursera.org/share/6192507a6ca5f8f4a9ba27e55d766dff>
- **Technical Support Fundamentals**  
Google, Coursera  
Certificate Link: <https://coursera.org/share/926a70c31397e531466985cd72e24adc>
